

CATHERINE MEJIAS DA SILVA

Frontend Developer

Caracas, Venezuela • catherinemejiasdsilva@gmail.com • [linkedin.com/in/catherine-mejias/](https://www.linkedin.com/in/catherine-mejias/)

Web Developer with a strong background in frontend technologies and a deep passion for problem-solving and continuous learning. Possessing 3 years of hands-on experience. Committed to seeking new opportunities for professional growth and development of skills.

WORK EXPERIENCE

Frontend Developer - Full Time

January 2022 - July 2024

Indava - Remote

- Worked with a small startup team to develop a SaaS product using React, Typescript, Material-UI for UI components, Storybook for component documentation, Highcharts for data visualization, and implemented Cypress tests for end-to-end testing on each dashboard.
- Demonstrated strong problem-solving skills by efficiently fixing bugs and implementing new functionalities, contributing to the continuous improvement of the product.
- Played a key role in the design of new functionalities, providing valuable input and collaborating with the team to deliver user-friendly and visually appealing features.
- Successfully transitioned to a new project, demonstrating adaptability and the ability to quickly familiarize with new technologies and frameworks such as Next.js, Tailwind, AMP, and Drupal.
- Demonstrated strong time management skills by successfully balancing responsibilities across 3 concurrent projects, effectively prioritizing tasks and consistently meeting project deadlines.

Web Developer - Internship

June 2021 - November 2021

Jacinto Convit Foundation - Hybrid

- Collaborated in a project with a small team utilizing HTML, CSS, JavaScript, jQuery, Bootstrap and PHP.
- Successfully refactored legacy code, transforming it into cleaner, more maintainable, and readable code, improving the overall code quality and enhancing future development efforts.
- Significantly contributed to the optimization of performance and reduction of loading times, implementing efficient coding techniques and leveraging best practices, resulting in an improved user experience.

OTHER EXPERIENCE

Frontend Developer - Open Source

- Multiple open source contributions to Mozilla Firefox repository through Outreachy program.
